---

### Programming Skills

**Language** : Javascript, HTML, CSS & Python

**Libraries and Frameworks** : React, Node.js, Express, Django, JQuery

**Database** : MongoDB, Mongoose, SQL, PostgreSQL, MySQL

**Other** : Git, Github, Github Pages, RESTful routing, APIs, VS Code, Atom

---

### Developer Experience

General Assembly - New York City, NY

*Software Engineering Fellow*

October 2022 - January 2023

12-week, 500+ hour fully immersive program focused on software engineering and computer science fundamentals. Learned to build high-level software applications using key languages and frameworks. Wrote high-quality javascript and leveraged Js libraries, such as React, to build dynamic user interfaces. Proficient in bug fixing, designing, performance testing, application development, developing technical documents and system architecture.

#### Software Projects:

[Portfolio](#) | Browser | HTML, CSS, Bootstrap

A portfolio site that showcases my skills and updated projects

[YesChef!](#) | React CRUD app | Javascript, React, Node, Express, MongoDB, Netlify

A team built, full stack application allowing users to upload, rate, edit and delete recipes. Search and filter function letting users to find the recipe they wanted. Utilize bootstrap for styling.

[StarGym](#) | Full stack CRUD app | Javascript, MongoDB, Express, Node, Heroku

Full stack application allowing users to choose the workout they like. Youtube videos and google map are embedded.

[Sample](#) | Browser | Javascript, HTML, CSS, JQuery, Github Pages

The very first multipage web application that was built.

---

### Professional Experience

NYC Department of Health - New York City, NY

*Public Health Sanitarian*

August 2019 - October 2022

- Debugged and solved technical issues. Ensured all applications were updated and linked properly.
- Managed a team of 100+ staff. Coordinated schedules, developed and troubleshooted workflow. Communicated with key stakeholders to ensure best practices.
- Worked with a diverse team and adapted to new and changing policies.

A Plus Medical Care, P.C - Brooklyn, NY

*Medical Assistant*

March 2014 - August 2018

- Performed staff training, patient intake, procedure preparations, logbook maintenance.
- 

### Education

Software Engineering Bootcamp, General Assembly

2023

B.A in Health and Nutrition Science, CUNY Brooklyn College

2018
